The 39th Beijing Youth Science Creation Competition (BYSCC)

March 23th-26th, 2019 · Beijing

10 – December-2018

To:ITIS “Montani”

Fermo

Italy

We are honored to invite you to attend *the 39th Beijing Youth Science Creation Competition (BYSCC)* to be held in Beijing from March 23th to 26th, 2019. The theme of this year's competition is *Discovery, Innovation and Responsibility*.

Co-sponsored by several corporations, Beijing Youth Science Creation Competition (BYSCC) is a large-scale science event with demonstration significance. It is jointly hosted by Beijing Association for Science and Technology, Beijing Municipal Commission of Education, Beijing Municipal Science and Technology Commission, Beijing Municipal Intellectual Property Bureau and the People's Government of the District where it's organized. The fundamental purposes of BYSCC are to promote the vigorous development of youth scientific and technological activities, to cultivate youth innovation and practical capabilities, to improve youth scientific and technological literacy, and to encourage talents to spring up.

We look forward to meeting you at *the 39th Beijing Youth Science Creation Competition (BYSCC)* and share the exciting moments with you!

Overview

March 23th-26th, 2019 · Beijing

As a large-scale science event with demonstration significance, Beijing Youth Science Creation Competition (BYSCC) is a scientific and technological competition designed for teenagers in Beijing with 38 years' history. BYSCC is actively developing to a demonstration and communication platform for teenager science and technology fans under its fundamental purposes including serving teenager science and technology fans in Beijing, cultivating youth innovation and practical capabilities, improving their scientific and technological literacy, as well as encouraging science and technology teenager talents to spring up. Till now, BYSCC has grown into a scientific and technological event for teenagers with demonstration significance and shows guidance to other similar events, seeking to become a prestigious brand of its kind in Beijing. In 2018, the BYSCC received 1,992 pieces of work for initial evaluation selected by districts of Beijing, including 1077 youth competition projects, 73 excellent science and technology activities, 16 outstanding science and technology instructors, 141 innovative projects by science and technology instructors, 128 proposals for Science and Technology Idea Competitions and 714 science-fiction paintings by children. Besides, 98 guests of 16 delegations from 13 countries and regions like Hong Kong SAR, Macao SAR and Taiwan participated in *the 38th Beijing Youth Science Creation Competition* with 37 projects to compete and 1 project on exhibition, among which 5 projects from the Italy, USA, Russia, Hong Kong SAR and Taiwan compete for the First Mini Maker Fair for Students.

Theme

Discovery, Innovation and Responsibility

Date

March 23th-26th, 2019 (Saturday to Tuesday)

Place

Huairou Campus, University of Chinese Academy of Sciences

Organizers

Beijing Association for Science and Technology
Beijing Municipal Commission of Education
Beijing Municipal Science and Technology Commission
Beijing Municipal Intellectual Property Bureau
The People's Government of Huairou District, Beijing

Notes for members of the delegation

1. The participants must be high school students (equivalent to Grade 10-12 in China).
2. Projects to be submitted are limited to Eight categories: Computer Science, Mathematics, Zoology, Biomedical Science, Biochemistry and Molecular Biology, Environmental Science and Engineering, Physics and Astronomy
3. For each delegation, two projects are the maximum.
Projects can be individual or group work. For each group project, three members are the maximum.

Note: Please send back Forms and a personal ID photo to the Email address indicated below by Jan.5, 2018.

Fees

1. The flight tickets and other expenses shall be paid by the delegation itself.
2. Local accommodation, food and transportation expenses will be covered by the Organizers.
3. Registration fees: all adults in the delegation need to pay a registration fee of RMB 500 per person. The teacher who acts as the judge doesn't need to pay a registration fee and will receive an amount of judging fee according to local standard.
4. Extra visitors are also welcomed but will have to pay all the expenses.

General Guidelines for Participants

Dear participants,

Thank you for your participation in the 39th BYSCC. Here are some matters that need your attention.

Voluntary Assistance

Each team will have one or two volunteer(s) (college students) for assistance. The volunteer(s) will accompany your team through the whole competition.

Flight Information

Since the hotel is far away from downtown areas, the organizing committee will arrange airport pick-up and drop-off. Please send us your flight information as early as possible. If there is any change on your flights, please let us know.

Accommodation

All participants will stay at the International Conference Center of University of Chinese Academy of Sciences together with the organizing committee.

The hotel is located in Huairou Campus of UCAS, about 46 kilometers from the Beijing Capital International Airport. The hotel's official website is <http://iccucas.ac.cn/Pages/default.aspx>.

Two students will share one double-bed room.

Please submit a scanned copy of each member's passport for lodging arrangements.

Food

If any member of your team has food restrictions or allergies, please specify by Email.

Clothing

Please bring tidy casual clothing including your school uniform or formal suit / dress which you will need to wear during the judging process and at the awarding ceremonies.

For Exhibitions

Please prepare a poster in English (size: 90cm*120cm) to be exhibited on the competition site.

We suggest you bring an adaptor plug. If your project requires extra electrical outlets, please specify.

Judging

Each participant who attends the 39th Beijing Youth Science Creation Competition will meet with the judging panel on March 24. The judges will be familiar with the projects already through the project forms you've submitted. However, this will be an excellent opportunity for the participants to talk about their research and also a good opportunity for the judges to ask questions.
